

Vive la France!

The French display combines elements of Parisian lifestyle and landmarks with the French work of KS3. The display was designed to be of interest to students, from a curriculum perspective, enabling them to visually recognise landmarks, colours, numbers, names of classroom objects, names of (extended) family and the rooms in a house as well as basic French conversation phrases. Elements of gastronomy, literature, music, film, politics and architecture were incorporated to appeal to parents, visitors, staff and our older 6th form students.
